I gave Steve the letter back in track changes and didn't look at a clean copy so this shouldn't go to Jen (or wherever) without another looksee.

Thanks!
Pam

Here you go. A couple questions, but other than that, looks good.

Pam,

I put what I could into this letter. Can you please try to convert it into a letter. Stacie wants it by 2 pm. It's 8 pm I have had enough. Time to go eat dinner and play with my kids.

Steve – Please pull together whatever you can by 2 pm to me tomorrow. If nothing else, just take each line item and put an EPA’s response to it. Don’t worry about making it pretty.

If you need to talk, let me know. Again, I’m sorry for the quick turnaround on this.

Rick – I don’t think it’s right that this expectation is being laid out to us with this expedited turnaround. I know I’m preaching at the choir here, but it just doesn’t seem right. That should have told us this sooner.

Thanks.

We need to have responses for Cos to review by tomorrow. I expect CRW to raise all of their concerns in that letter in the meeting, and Cos needs to have something in response.

Jen,

I went through the draft Steve Maslowski had prepared that would have formed the basis for our response to CRW’s June 2nd letter. This only covers Section B of CRW’s letter – the section focused on the LTCP projects. We’ve asked Steve to drop everything he is doing to complete the document to cover the remainder of CRW’s letter. We focused on preparing the meeting Agenda, so this document was dropped in order to get the agenda together.

Karen has not yet seen this and it has not gone through any legal review. I wanted to share it with you so you can see the format and coverage in case you wanted us to make some changes to any of it.
